LAWRENCE, DAVID

We need Japan and Japan needs us, interests of U S, Japan are bound more closely now than in history of two nations; origin of Japan's expansionist policies was desire of people to find commercial outlets; Japan's problems must be sympathetically examined on long-range basis, for ours is natural alliance in Pacific in view of menace of Soviet-dominated China, Jl 3 p 92

Is war the only way? alternative to military war is policy set forth by FDR known as "quarantine", economic boycott of Communist bloc; to be effective, Western nations, "neutrals" must apply it uniformly; Khrushchev may miscalculate, bring on nuclear war; preventive effort would be worth any sacrifice, Jl 10 p 96

Just two yrs ago—to know "where we stand" in conf with Moscow, wishful thinkers asked to re-read news article in "USN&WR" issue of June 22, 1959, which points up lessons of Geneva Conf after five wks of talking, Jl 17 p 104

"Equal politics" under law, inscription on Supreme Court building, "Equal Justice Under Law", applies to all fed courts in land; last thing to be associated with appointment of judges should be party politics, yet record of both parties is open to criticism; time to abolish "equal politics", revert to "Equal Justice Under Law", Jl 24 p 100

Khrushchev's illusion (from Europe), illusion in mind of Soviet Premier that he can bluff adversaries by threat of war as Hitler did; betting on allied disunity, unwillingness to risk war; situation different today and U S, allies have made decision not to surrender vital interests and to fight if necessary, Jl 31 p 84

Berlin is not the basic issue; why concern ourselves with keeping one part of Berlin free when it's more important to emancipate already captive East Germany? Khrushchev's insistence on separate peace treaty with that govt reveals sinister purpose: to keep Germany divided; Brit, France, Amer must face true issue, launch massive plea for restoration of freedom to all Germany, Ag 7 p 96

LAWRENCE, DAVID—Contd.

U N—mediator or meddler? (from Europe), U N with noble purposes, aims contains seed of its own destruction; this noticeable in affair involving France, Tunisia; duty of U N in internatl controversy is to function as mediator, but it has no power to tell sovereign nations what they must do, Ag 14 p 100

The hour of apology (from Europe), memory of Pearl Harbor, Hiroshima, Nagasaki, remains festering sore in relations with Japan, America; mutual apology important today in rebuilding relations; Communists, Germans should also confess sins for peoples wronged in W W II; would be contribution to cause of human understanding and avoidance of errors ahead, Ag 21 p 100

The big prison (from Europe), 17 million persons imprisoned in East Germany by Communists; West's failure to speak up against this act of inhumanity will embolden Communists; U S should lead in denouncing imprisonment of human beings behind walls of Communism, Ag 28 p 96

This changing world, lessons of history have often been ignored; mistakes made in reconstruction periods after both world wars; Nazism's expansion in Austria, Balkans by military force has counterpart today in internatl Communism, but oppression eventually breeds revolt; quest for life, liberty, happiness in Eastern Europe is manifesting itself in widespread unrest, S 4 p 92

The strategy of terror, when Khrushchev announces resumption of nuclear testing, threatens world with destruction by super-weapons, he is convinced he can scare West into surrender; we must soon resume testing while we seek to reach people behind Iron Curtain, tell them of dangerous game Khrushchev is playing, S 11 p 116

"A most hazardous undertaking," Pres Kennedy has urged steel cos not to raise prices, says they can absorb wage increases, still have a "good profit"; free enterprise system can be wrecked if govt starts setting profit margins, telling business what price it can charge while no limit set on wage costs imposed by labor-union monopoly, S 18 p 140

Profits without honor? Kennedy Admin has adopted one-sided course in pressuring steel companies not to raise prices; to publicize profits as greed without denouncing union power to extort wage increases is sheer demagoguery, S 25 p 128

What defeated the U N? First crucial blow came when USSR aided aggressor in Korea; Soviets since have flouted Charter, played power politics, lined up weak African nations to support its objectives; U N is now "half-slave and half-free"; society of free nations should be organized to replace U N, O 2 p 120

Responsible Cong—when? Cong which just adjourned had no natl leadership, should have studied Amer economy, ways to strengthen it; Cong itself, hodgepodge of localisms, needs reform, caucus system, in large part, needs to be restored, O 9 p 144

Irresponsible politics, Nixon-Knight dispute in California shows system of primary elections defective in expressing will of members of political parties; laws needed to make sure only party members can vote in party primaries; if primaries can be rigged by few politicians, may be better to go back to State convention system, O 16 p 124

When? Govt receipts increasing each yr, but no provision has been made for paying off natl debt; quotation from Adam Smith's "Wealth of Nations", on inflation, debt repudiation; public confidence in dollar must not break down, O 23 p 124

Why we are "soft". reprint of article by Donald I Rogers, from New York "Herald Tribune", in answer to Sec of Commerce Hodges' charge that Amers are getting "soft"; people don't work hard because govt has removed incentive, O 30 p 108

Let's Invade Cuba, invasion of ideas to tell people of Cuba full story of what Castro has done; inter-Amer organizations can be developed to finance broadcasts of information, plans for rehabilitation, N 6 p 116

White House burdens—they are older than Kennedy, story of Wilson's time—it sounds like 1961; reprint of article by David Lawrence in March, 1917 issue of "The Century" magazine, N 13 p 58-60

LAWRENCE, DAVID—Contd.

The "fallout" scare, nuclear bombs do inflict damage but even scientists disagree on fallout dangers; Soviet propaganda on fallout hoaxed U S to stop tests for three years; time now to resume tests if needed for defense while bigger job is to tell people behind Iron Curtain we have power to destroy them and, with "fallout of facts and figures", persuade them to set up free govt, N 13 p 144

You can't bury the facts, Mr. Khrushchev, burial of Stalin's body will not erase his sins or those of his collaborators still in Kremlin; analysis of Communist operations in excerpts from "Democracy versus Communism" by Prof Kenneth Colegrove, N 20 p 120

When price-fixing isn't price-fixing, were not risks of anti-trust violations involved for steel executives if they complied with Pres letter urging them to hold prices? excerpts from speech by Atty Gen Kennedy attacking price-fixing; it's time to stop calling businessmen names, to clarify rules on "price-fixing", N 27 p 112

Unchanging duty in a changing world, full text of recent statement of Catholic Bishops of Amer on moral values; document reflects traditional Amer concept of moral law, D 4 p 108; 106, 107

A traveling Pres? this new age of communications requires Pres to visit other countries, confer with officials of other govts; what writer said about proposed trip of Pres Eisenhower November 16, 1959; Pres Kennedy's plan to tour world can mean much to spread of democracy, D 11 p 112

A hopeful paradox, even as we talk of weapons of destruction, there is even greater emphasis on economic prosperity; Pres Kennedy's speeches before NAM, AFL-CIO indicate that he is concentrating on how to build strong economic front, D 18 p 108

A stirring appeal from Cuba, full text of letter received from Cuban clergyman; earnest appeal for help from country ruled by Communist dictatorship; how U S can help freedom-loving Cubans overthrow Castro, his Communist regime, D 25 p 84, 83
